Static and dynamic experiments in cryo-electron microscopy . A technique for preparing electron microscope specimens for dynamic straining experiments. Author links open the overlay panel. Numbers correspond to the UST Ultrafast Electron Microscopy Caltech J Microsc. 2004 Feb;213(Pt 2):198-204. Static and dynamic experiments in cryo-electron microscopy: comparative observations using high-vacuum, low-voltage Advanced Scanning Electron Microscopy and X-Ray Microanalysis - Google Books Result Dynamic experiments in the electron microscope - Agris UEM2, Caltechs second generation ultrafast electron microscopy laboratory, has . of the relation between the experimental observables and the optically driven 4D imaging and diffraction dynamics of single-particle phase transition in The role of dynamic transmission electron microscopy on the . Dynamic Transmission Electron Microscope Dynamic Experiments in the Electron Microscope (Practical Methods . 27 Aug 2015 . Dynamic Transmission Electron Microscopy (DTEM) is an attractive based both on modelling (Ab-initio) and in-situ experiments (DTEM). Dynamic experiments in the electron microscope / E.P. Butler, K.F. Dynamic experiments using in situ dynamic electron microscopy methods are playing a key role in understanding and creating nanomaterials and processes for .
